

WKD 2021 Report

Name: Tomislav Žuljević

Organization name: Association of Dialyzed and Transplanted to the Federation of Bosnia and Herzegovina www.ditb-fbih.org
President of the Association of Dialysis and Transplantation in the Canton of Central Bosnia and Donor network in Bosnia and Herzegovina
www.donorskamreza.com

Country: Bosnia and Herzegovina

Number of events organized/collected in your country: We only had two events, but a lot of events were planned.

Activities of note (please give a brief description of the activity with links to online sources that mentioned it): We would like to inform you about our activities that we have implemented and about the activities that we planned to implement, but due to the worsening epidemiological situation, we had to prolong them.

So, we managed to organize a QUIZ in several classes of high school in the city of Novi Travnik on the topic of how much you know about your kidneys. This activity included about 100 high school students and proved to be very interesting and important when it comes to education and work on the prevention of kidney disease.

Our second activity was a mini public forum in the town of Busovača in Central Bosnia in cooperation with the mayor of this municipality.

And if for epidemiological reasons the number of attendees was limited the organization of this forum was successful. The reason is the arrival of doctors from the profession, nephrologists, anesthesiologists and especially important media coverage of this event.

Unfortunately, the plan to organize a symposium together with the Donor Network in BiH in the capital of Bosnia and Herzegovina, Sarajevo, on the topic of “Living well with kidney disease” failed due to the well-known situation with the pandemic.

Also, we failed to organize a stand in the center of Sarajevo or a street race in the city of Vitez, called “Vitez runs for World Kidney Day”, and if everything was ready for the race.

Here we would like to mention that in the past period we have prepared everything from promo and educational material. These are banners, badges, brochures, leaflets, T-shirts, etc.

We postponed the events that we failed to realize to the month of May 2021. So, which is a bit unusual, we will continue to celebrate World Kidney Day in May.

Please find attached some photos and logos of the Associations that were included in the celebration of World Kidney Day 2021.

List of media that published WKD press releases or mentioned WKD related activities (newspapers, magazines, online publications, TV, radio, etc..) – please provide link to online sources:
