If you have created a World Kidney Day local website, Facebook page or Instagram account, please provide analytics such as: number of followers/number of site visits in March/ content most requested/ page views/ posts most liked/ hashtag reach, etc....

All media menus, as well as state television and large print media, have passed our activities on marking the World Day of Kidney 2019.

#SvjetskiDanBubrega #prevencija #transplantacija #BudiDonor

List of celebrities involved and short description of their involvement

- President of the Federation of Bosnia and Herzegovina Mr. Marinko Čavara promoted the symposium in the city of Mostar together with the Croatian extravagant stars.
- Petra Grašo and Tonči Huljić
- A lot of doctors from hospitals and clinic centers were involved in the organization of our activities.

The most famous names are

- Prof.dr.Halima Resić Clinical Center Sarajevo
- Professor Ensa Mešić Clinical Center in Tuzla
- Prof.dr.Senaid Trnačević Clinical Center Tuzla
- Prof. Dr. Monika Tomić Clinical Center Mostar
- Dr. Nermina Rizvanović of the Zenica Hospital
- Dr.Lejla Hantalašević Bečić Hospital Zenica
- Dr. Emir Avdić Hospital Sarajevo

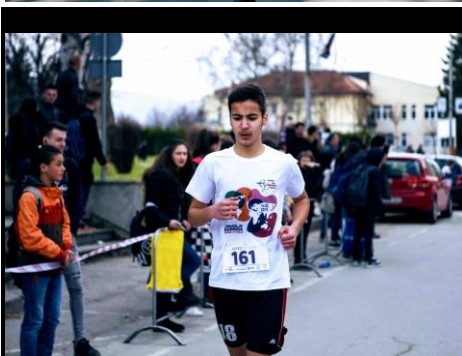

World Health Day was donated by the Bosnian Ministry of Health to the canton and the mayors of Travnik, Vitez, Novi Travnik, Sarajevo, Mostar, Vareš as well as many companies and some other legal entities. **Media attention was enormous.**

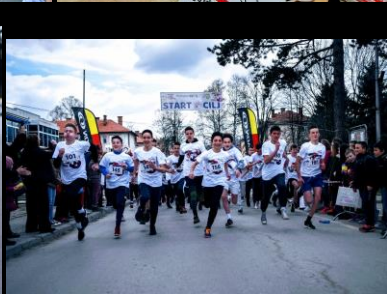

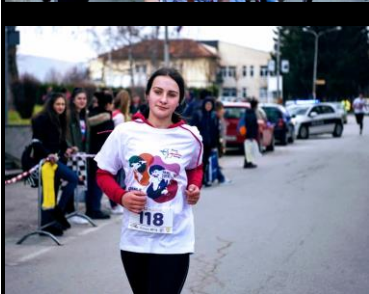

Description of advocacy activities:

Our activities were different in marking the world kidney day for 2019. In the street race we wanted to send a message that very important physical activity, healthy eating habits and a healthy lifestyle in general. Children from elementary schools shared educational material, 8 gold rules, we shared water and fruit, and the best medals and prizes were awarded. This event has brought together local and other media that have overlooked the importance of preventing kidney disease. Tribes and Symposiums also pointed to the lack of transplants in Bosnia and Herzegovina. The Symposium organized in Mostar was assisted by the director of the Federation of BiH Health Insurance and Reinsurance Institute We have used the unprecedented attention of the media to point out the need for systematic disease prevention as well as poor dialysis quality of a small number of transplants in B & H.

Simpozij o transplantacijskoj medicini u Mostaru

Foto: I. VUKIĆ

U BiH svega 20 transplantacija godišnje, dok je u RH od 350 do 400

Simpozij "Transplantacija u BiH" pod patronažom Ministarstva zdravstva u Mostaru, 14. marta 2019. godine, okupio je stručnjake iz cijele BiH i susjednih zemalja. U okviru ovog događaja održane su predavanja i razgovori o najnovijim dostignućima u transplantacijskoj medicini.

Paraziti pacijenti
Prevalencija bolesti uzrokovane parazitima u BiH je visoka. Najčešći paraziti su helminti, a najopasniji su paraziti koji izazivaju bolesti jetre i bubrega. Zbog toga je važno da pacijenti koji su podložni za transplantaciju budu pažljivo pregledani i svimama da budu dobro informisani o tome kako se mogu zaštititi od zaraze.

Paraziti pacijenti
Prevalencija bolesti uzrokovane parazitima u BiH je visoka. Najčešći paraziti su helminti, a najopasniji su paraziti koji izazivaju bolesti jetre i bubrega.
