

WKD Activity Report

- **Full Name: Kidney Care Count**
- **Organization name: Prince of Wales Hospital, Randwick, NSW**
- **Country: Australia**
- **Activities of note:**

World Kidney Day 2026 at Prince of Wales Hospital was a wonderful and successful event, bringing together staff, patients, and visitors to raise awareness about kidney health. The event featured educational activities, interactive games, and opportunities to connect with the nephrology team. This event was made possible through outstanding teamwork, generosity, and commitment from every individual and organization involved. The nephrology team is proud to continue championing kidney health and education in our community.

 - **Information Counter:** A great turnout allowed our team to answer questions and share vital kidney health information with staff and visitors.
 - **Interactive Activities:**
 - Kidney health awareness Quiz
 - Guess the number of jellybeans in the jar
 - **Educational Support:** Dietitian team provided valuable dietary information and patient education resources.
 - **2-minute Kidney health check:** Kidney Health Australia
 - **The Dialysis Unit and Renal Ward teams hosted a pot-luck lunch, fostering community and warmth.**
